Comments from the Executive Vice President

Mr. Francisco Zinser, stated:

In the first nine months of 2024 we posted a 66.6% occupancy in our portfolio, the highest first nine months occupancy in the past 7 years for Grupo Hotelero Santa Fe. Additionally, we posted a 25.7% EBITDA Margin in the same period, which is remarkable given some of the challenges we faced this quarter including the remodeling of the KB Acapulco due to the impact of Hurricane Otis.

In terms of operating indicators of Company-owned hotels, in 3Q24 we grew our RevPAR by 8.1%, as we increased our ADR by 6.9% combined with a 0.7 percentage point growth in occupancy. Revenue totaled Ps. 678.2 million for 3Q24, up 3.4% compared to 3Q23. EBITDA was Ps. 143.6 million for the quarter, down 7.7% compared to 3Q23.

Also, I would like to mention that none of our achievements would be possible without the support of our dedicated employees, experienced management team, and the confidence that you, our investors, have placed in us.

Hotel Classification

For comparison purposes, the hotel portfolio is classified by: (i) Company-owned hotels and (ii) those owned by third parties that are managed by HOTEL. The rationale for this classification is that the largest portion of revenue is provided by Company-owned hotels. While commercially relevant for the hotel platform, hotels under management only generate management fees for the Company, which are shown in the P&L statement under Third-Party Hotels Management Fees.

Of a total of 6,258 hotel rooms in operation, the operating indicators for 3Q24 include 5,781 rooms, 263 rooms from the Vacation Club, 45 rooms have unavailable information, and 169 rooms under renovation are excluded from this analysis. They are detailed at the end of this report in Appendix 1. The following table is a summary of 3Q24 key operating metrics compared to the same period of last year, based on the classification. The methodology used to determine the number of rooms considers the number of available rooms divided by the corresponding number of days in each period.
